

TRACKER product descriptions

TRACKER *Retrieve* - Battery powered

Specifically engineered to protect infrequently used assets or underpowered vehicles. The battery powered TRACKER *Retrieve* has its own power source and requires no wiring into the electrical system of your vehicle. Easy to fit and suitable for all kinds of vehicles and assets from horse boxes, quad bikes, trailers, vans to vintage motorbikes and classic cars.

Using the same advanced VHF tracking technology as our other TRACKER systems, the battery powered TRACKER *Retrieve* can offer a fast and effective recovery of your stolen vehicle or asset.

The battery powered TRACKER *Retrieve* features:

- Our unique patented VHF technology, enabling us to track stolen vehicles even when they are stored in lock-ups, containers or underground car parks
- A long battery life with up to 5 years standby
- Easy installation in vehicles or hired assets
- High tech VHF tracking that is not affected by GPS/GSM signal jammers
- Full nationwide support from the UK police force
- Tracking coverage throughout the UK as well as France, Spain, Poland, Italy, Luxembourg and Holland.

TRACKER *Monitor*

TRACKER *Monitor* is our entry-level 'wired' stolen vehicle recovery solution, renowned and highly effective the TRACKER *Monitor* utilises our unique VHF technology. In the event of theft where the vehicle is moved without the ignition turned on, the motion sensor will alert TRACKER who will in turn notify you of a probable theft.

On confirmation the unit will be activated to enable a fast and accurate tracking and recovery.

TRACKER *Monitor* features:

- Our unique patented VHF technology, enabling us to track stolen vehicles even when they are stored in lock-ups, containers or underground car parks
- High tech VHF tracking that is not affected by GPS/GSM signal jammers
- A motion sensor to detect unauthorised movement of the vehicle
- Full nationwide support from the UK police force
- Tracking coverage throughout the UK, Spain, France, Italy, Poland, Luxembourg and Holland.

TRACKER *Plant*

TRACKER *Plant* is designed for construction and agricultural vehicles and equipment; combining stolen vehicle recovery technology with fleet management functionality.

TRACKER *Plant* customers can view their assets online using a web portal. This offers a host of useful information and features allowing you to;

- **Review** plant use with weekly email reports
- **Plan** servicing efficiently
- **Monitor** exact hours of use
- **Protect** your plant in the event of theft
- **Track** patterns in working times and hours

TRACKER *Plant* features:

- Our unique patented VHF technology, enabling us to track stolen vehicles even when they are concealed in containers, lock-ups, barns and warehouses
- Dual technology and signal jamming detection, stopping criminals using GPS/GSM jammers to block the tracking signal.
- Nationwide support from all UK police forces
- Web portal to monitor plant running hours and manage service schedules
- Reports and data offering insight into all aspects of your fleet
- Geofence breach alerts
- Europe wide coverage
