

November 2024 Bulletin

Welcome to the latest E-Bulletin.

Although field operations have calmed right down, the team are still very busy organising all manner of things from fuel, building supplies, construction plant hire & fencing materials. It is also the season where a good proportion of training gets delivered. As always we provide training at our facilities or your farm/site to suit.

The 2025 Handbook is getting started and the board will be meeting to decide on prices early December. If you have any suggestions (up or down), or omissions we would welcome an e-mail with your suggestions. Only written submissions will be considered by the board. If you would like an advert in the Handbook please ask for more details.

As the cooler temperatures are starting to arrive, all gas oil orders till the end of March have an additive to help prevent the fuel from waxing, causing issues for machinery. We stock an additive if you do experience waxing issues.

Ring the Ring for Anything.

Christmas Opening Times

Everyone at Tayforth Machinery Ring would like to take this opportunity to wish all our members a very Merry Christmas and a healthy and successful 2025. Thank you for supporting your ring this year, we look forward to helping you with all your needs in 2025.

Winter Wonderland

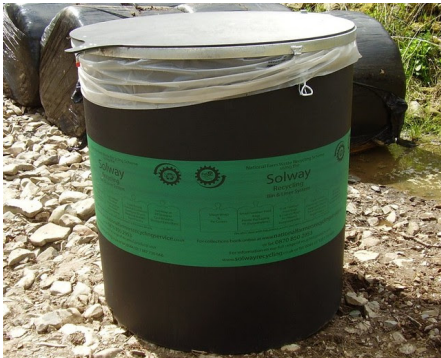

With Winter not yet upon us it maybe seems strange to be talking about snow clearing. But with temperature now beginning to drop now's a good time to tell us if you haven't already what snow clearing equipment you have available, especially let us know if you have smaller snow clearing equipment (like small tractors or quad bikes with snow ploughs). Remember Talk To Tayforth.

Fuel

With the cold weather and the Holiday Season fast approaching mind and keep all your fuel tanks topped up, and order all your fuel with as much lead time as you can give to allow for prompt deliver if the weather changes. Ring the Ring for all your fuel requirements.

Solway Uplift

If you haven't yet responded to Anna's email regarding the next uplift, please do by the 1st December – including number of bags even if 0 and the location of uplift. (minimum 2 bags per location) The uplift will be in the start of 2025.

Bags will not be counted for if not responded by email.

If you would like any more bags , they come in packs of 5. £200/pack, email Anna or call the office.

anna@tayforth.co.uk 01577 830616

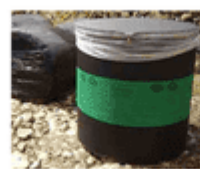

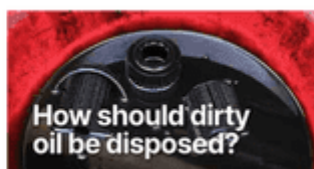

Tayforth Beanies

As the weather is starting to get cooler, Tayforth has beanies in which all members are entitled to, so far this year we have given out over forty!

If you would like a beanie, please contact the office on 01577 830616. This is subject to availability and maximum of two per member.

Keeping Your Yard Tidy

Let us help you keep the yard tidy this winter. Whether it is tyres, farmyard waste including net wrap, silage wrap, plastic containers, scrap or waste oil, we can arrange to have these all removed through various streams. This can include Solway Bins, Skips, or waste uplifts. If you are interested and would like more information, just give us a ring at the office.

Training

Winter is now approaching and as always, we have various courses being arranged over the next few months. As many of you will have more time to invest in training, do consider some of the courses on offer. We offer a variety of courses ranging from Forklift, First Aid, Pesticide to Chainsaw and Vermin Control. Our flexible approach allows the venue, timing and dates to be arranged to suit your needs, as a result achieving required qualifications with little inconvenience to yourselves. We can offer Lantra, NPORS, CPCS & IPAF qualification and many more.

Are you looking to dip your own sheep but don't have the qualification. Tayforth can offer Training along with NPTC Assessment or just assessment only. For more details contact the office.

We have been hosting Tractor Driving for 13-15 year old and has proved to be worth while with great feedback from it. If you have young drivers who would benefit from this course, please get in touch as we can get courses arranged on school holidays.

We have successfully completed Pesticide Training & NPTC Assessments for Scotrail Trains in Scotland. We trained up to 70 employee who are based over Scotland.

E-mail Lynne

MAKING A FARMER sell their land for inheritance tax is like asking...

- a supermarket to sell their shop floor.
- a joiner to sell their tools.
- a gardener to sell their lawnmower.
- a chef/cook to sell their cooker.

**LAND IS A FARMERS MOST IMPORTANT TOOL
WHEN WILL COMMON SENSE PREVAIL?**

NO LAND

NO FARMERS NO FOOD
