

## Monthly Update

## May 2024 Bulletin

### Welcome

Spring weather finally arrived and crops got sown/planted, albeit rather late. However the recent warm & sunny weather has helped these crops progress well and catch up substantially.

The Show season has started with Tayforth having a stand at Fife show last weekend and a good number of Members popped in to say hello.

Now that cattle are out of sheds we have plenty of availability to assist taking dung out and power hosing or washer hire. Labour is always in good supply prior to Harvest time when it always becomes scarce.

If you will require assistance during Silage or Harvest, please try to plan ahead and give our team some notice so they can find the most suitable member to help you out.

We are still visiting members and are out and about doing our Triennial visits. If you would like someone to come and discuss your services, accounts or make changes then please let us know.

## Show Season

Fife Show was a beautiful day, lovely hot weather and lots of members popped by to say hello and grab a refreshment with the Staff. Plenty of samples were tried from the range supplied by the St Andrew Brewing Co with some great feedback on the taste.

Just to let everyone know we will also be making an appearance at Highland and Kinross Shows, so if you're about come along and see us. We'll have more samples available on the day. Hopefully the weather will be just as kind.

---

## Availability

Just a small reminder that should you have availability of anything, ranging from yourself for labour work, with & without machines, straw, grain, even grazing – Summer or Winter, sheds for cattle over wintering or any other commodities please do let us know and we can have it on the system allowing the efficient matching up of requests.

We have a specific request for large shed to rent for long term storage near Glenfarg. If you think you have anything suitable please tell our team.

---

## Solway Uplifts

Anna sent an email out at the end of March regarding a summer uplift which had a deadline of 22nd April. The list was sent to Solway on the 23rd April.

There was another list to send with late responses for a late July uplift, but this has also been sent 14th May– so any replies now will not be included and will be put on the Autumn uplift list.

There will be another email sent out for the Autumn uplift around end of August for late October /November time uplift. If, however, you want to inform Anna before then, please email her to be counted for. If you would like any more bags, then please contact the office.

---

## Net & Silage Wrap

With the start of silage season imminent, please do remember that Tayforth has stock of both Silage wrap and Netwrap for members to either collect in small numbers from our store near Milnathort or have full pallets delivered straight to your farm at competitive prices!

Please remember to Ring the Ring for anything you need, and we will do our upmost to get you the service at the best price.

---

## Meet Kia, the office dog

On a lighter story, when visiting our office please don't be alarmed by the "Guard Dog" making all the loud barking! This is our 5 year old Cockapoo office dog / mascot called Kia sporting her new Tayforth coat. Once she gets to you she will then attempt to pounce on you and lick you to death!

---

## Agri Party Hire

We have a member of the team that has started their own wee business venture with her family.

This consists of hiring out Tables & Chairs. They have x100 chairs with covers and x10 round tables with covers and x10 trestle tables- that will soon have covers. The Legs for the round tables have been hand made with steel, so they are extra strong. Based in west fife. So, if you are planning any celebrations/events – (birthdays, engagement parties, hen/stag parties ,baby showers, anniversaries etc) in sheds or gardens and needing tables & chairs then please contact [agripartyhire@yahoo.com](mailto:agripartyhire@yahoo.com) or check out the Facebook/Instagram pages.

## Solway Board

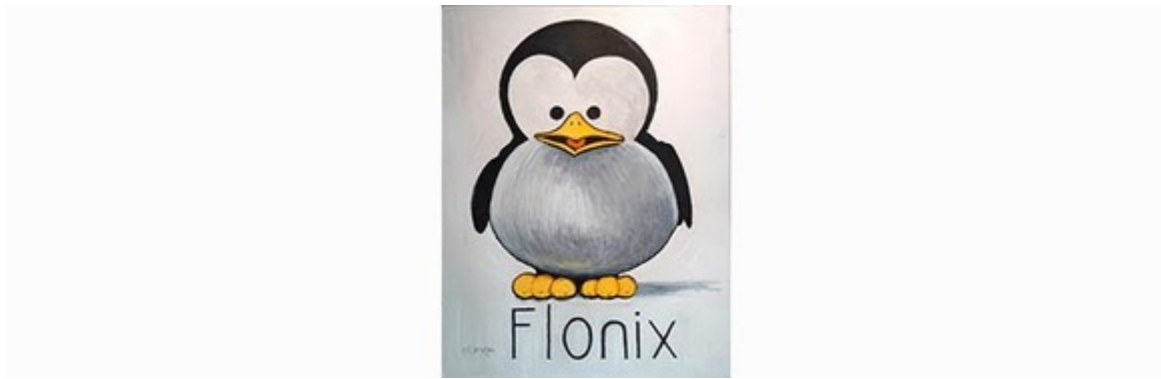

Are you looking to upgrade your sheds and gates and sick of replacing plywood?

Limited stock of 2nd Grade Solway Board available in black or grey at discounted rates as well as our perfect sheeting.

Sizes available include 8x4ft's and 10x5ft's.
